Hettich

Technik für Möbel

An exploded view of various Hettich furniture components, including metal frames, drawers, and sliding mechanisms, arranged in a dynamic, overlapping fashion against a black background.

We create values with first class engineering.

Intelligent fitting technology.

Diverse and top performing.

Technically perfected and long lasting.

Inventor of the "platform".

Greater product variety.

Lean production, lower costs.

Zero defects culture.

Efficient quality management.

For flawless products.
